

## **Knitting Club: Lab 3**

### **Brief Scenario:**

More than 50 million people knit or crochet to create fun and useful items, to relax, or to exchange ideas with fellow hobbyists at a regional guild or group. The local craft store in your community is offering a series of classes on knitting and crocheting techniques, and the manager has asked you to help promote the event.

**Information to put in (you decide how to best organize the information).**

**Make sure you follow the 7x7 rule:**

The introductory course includes instruction on selecting yarn, hooks, and needles; reading patterns; and making basic stitches. The intermediate and advanced courses include knitting in the round; making sleeves, buttons holes, and cables; and bead and filet crocheting. Classes are scheduled for four weeks on consecutive Saturdays beginning the first week of every month. All students will learn new skills and complete a fashionable project, which could include creating afghans, hats, and scarves for community residents in need.

### **Directions:**

Use the concepts and techniques presented in this chapter to prepare a presentation to promote the classes. Need to include shapes, wordart, and use of background fills. You can use photos from google, I have also provided some photos on my website you can **choose** to use. Make your design creative and unique. Check the rubric when finished. Run Spell check. Answer the following question: **You made several decisions while creating the presentation in this assignment: where to place text, how to format the text, which graphical images to use, what styles and effects to apply, where to position the graphical images, how to format the graphical images, and**

which shapes to use to add interest to the presentation. What was the rationale behind each of these decisions? When you reviewed the document, what further revisions did you make and why? Where would you recommend showing this slide show?

**When Finished:** Put your Red Cup up. Save. Minimize until Teacher comes to Grade. Work on your online courses. Finish FutureSmart. Work on Digital Literacy Course. Finished with both? Go to Google Classroom and find the TYNKER -Lesson 1
